## Spring and Insects

Each day we will focus on one special insect or flower and learn about what is unique about that insect/flower, their food, and life cycle.

As the weather will be warming up, we are excited to see the changes that spring brings. We will look for buds that are about to bloom when we go outdoors to explore.

We will also look outdoors to see if we can find any spring insects.

Do you think we will find any?  
Do you think we can catch any?
